

Consent to Treat For Minor

In order to provide safe and effective treatment to patients under the age of 18 a parent or legal guardian must accompany underage patients to their appointments. If the minor arrives with someone other than a parent or legal guardian, we must have written permission from the parent or legal guardian that this person has been appointed by you to act on your behalf.

You may appoint anyone who is over the age of 18 years of age to be responsible for your child when you are unable to accompany them to their medical appointment.

Consent to treat a minor will be appointed for one year unless otherwise stated
